CALL FOR PAPER

International Conference

On

Paradigm Shifts in Business Management, Economics,
Social Innovation and Information Science

“Sharing Globally”

प्रज्ञानम् ब्रह्म-०३

Supported By:

University Grants Commission, Nepal

&

Office of the Dean, Faculty of Management,
Tribhuvan University

Conference Objectives:

- To develop innovative research skills among aspirants.
- To disseminate knowledge of recent changes in Business Management and Social Science globally among aspirants through discussion.
- To build a modern foundation of educating management scholars, academia and practitioners.

Conference Overview:

The modern business environment is marked by strong rivalry as well as rapid changes in the commercial sector as a result of globalization. The need of understanding the nature of global trends has never been greater than it is today. Instability, inflationary trends, growing inequities between and within countries, and the stalling of employment caused by pandemics, technological developments, and socio-political churning being experienced in many areas of the world, including Nepal, are making businesses difficult to survive.

Furthermore, rapid growth in consumer demand and awareness, demand for sustainable economic development, fierce competition, easy access to credit, demanding customers, internal and external liberalization, macroeconomic stabilization, banking and finance restructuring, and the growing MSME sector are all forcing many businesses to reconsider their operations.

In tune with this, bringing together academia, practitioners, and industrialists to share knowledge about possibilities and risks, as well as changing trends and charting a path to success, has become a requirement. In this context, the 3rd International Conference of Lumbini Banijya Campus has set an objective to disseminate the innovative thoughts towards Paradigm Shifts in Business Management, Economics, Social Innovation and Information Science.
